TO: Gov. Cooper

Based on some recent interactions with NCDOJ, imagine the below may arise:

- (1) Atlantic Coast Pipeline — part of a discussion AGO had yesterday with SELC and environmental groups;
- (2) C&E Fund: there is currently not enough money in the fund for NCDOJ to cover all likely settlements (mostly related to concluding McCorry-era public records, redistricting and voter suppression cases)
 - (i) Alec will present a \$250K Settlement on public records to Council of State for C&E usage. Will be Josh's Office first such presentation. Suggest he do the necessary leg work to vote count.
- (3) Judges: He is interested in Meck Co Superior Court seat.
- (4) net neutrality: he's been vocal on opposing FEC's decision to eliminate Obama era rule on same.
- (5) Dreamers: Josh joined a letter of 15 AGs opposing changes in federal immigration policy.
